

END-TO-END  
SUPPORT THROUGH  
THE PROCESS OF  
CONSTRUCTION!

## ABOUT THE COMPANY

A backbone of real estate industry, scaffolding is the unique tool that ensures safety and smooth execution of any construction. Scaffolding has evolved from the use of wood and bamboo to high quality metal fittings, platforms and pipes. And with a vision to provide superior quality scaffolding that meets highest safety standards, Pune Scaffolding was inceptioned. Catering to some esteemed names of construction industry, Pune Scaffolding is now a respectable organization known for quality products and services. From undertaking turnkey projects to supply scaffolding equipment to consulting and assembling it, Pune Scaffolding ensures that it adheres to highest standards of safety, quality and service.
